Reach Higher CNMI/ CCDF Monitoring Tool Orientation

A total of 87 participants from nine childcare centers and one home provider completed an orientation to the newly revised *CCDF Reach Higher CNMI Monitoring Tool* on December 17th at the Kagman Community Center. Coaching staff from Evergreen Learning conducted this 9-hour session, which offered insight on how the monitoring tool will be utilized during quality care inspections. The session also provided an overview of the CCDF program and allowed attendees to ask essential questions about elements of the tool and other requirements aligned to health and safety and quality standards.

This training is made possible through funding from the Department of Health and Human Services, Office of Child Care, CNMI CCDF Program under the Department of Community and Cultural Affairs.
